Subject: CCC 2025 Federal Policy Blueprint - Draft Text ready for Review, Deadline Feb 14
Date: Friday, February 7, 2025 2:39:15 PM
Attachments: [2025 Federal Policy Blueprint Full Draft_BP WG Copy.pdf](#)
[Outlook-wnahtm35.png](#)

Dear Members of the Blueprint Work Group,

Thank you for all your support and feedback as we work to get the 2025 Federal Policy Blueprint finalized!

We're pleased to share with you the draft final text of the full Blueprint, which has been reviewed internally and is currently undergoing a thorough copy edit. As in prior iterations, you are just receiving the draft final content – the entire Blueprint is now undergoing a full design process, similar to the 2023 Policy Blueprint.

This text is based on the recommendations of this Work Group and reflects the contents of the previously shared Blueprint Outline. In addition to the full Blueprint, we are currently drafting the Summary for Policymakers, which will contain the following near-term legislative priorities contained in the Blueprint:

- Ensuring Investment Certainty
 - 45Q tax priorities contained in the Blueprint
- Transport & Storage Infrastructure
 - Strengthen the available permitting framework by:
 - Creating an optional federal siting authority pathway for CO2 pipelines
 - Review Class VI and state primacy applications in a timely manner
- Demand Side Policies
 - Collecting data on the emissions intensity of domestically produced goods.
 - Retool the CIFIA program to expand offtake of CO2
- Next-Generation Technology Deployment
 - Provide targeted support to achieve commercial lift-off of crucial technologies
 - Provide adequate funding through appropriations

At this point, we ask you to review the Blueprint language, as well as ensure your organization's name is correct in the Membership List, and get back to us with any higher-level feedback or concerns by the deadline below. If you have any concerns that we need to address together, sharing them ASAP is most appreciated, in order to meet our publication deadline. **We will not be able to accept line edits at this point.** This is both in the interest of sticking to our late February publication schedule and respecting the consensus positions we have carefully crafted throughout the past year.

Our publication timeline is as follows:

1. February 6: Send draft final text to designers for final design & for copy editing
2. February 14: Deadline for any Work Group member feedback – if we do not hear from you, we will assume you are fine with the Blueprint text
3. February 17: Share the full final text with the full Coalition membership for sign-off
4. February 24: Embargoed copy available to media
5. February 27: Online media preview event
6. February 28: The 2025 Federal Policy Blueprint will be published online

Please note, any feedback is due to Coalition staff on February 14 - we cannot guarantee any notes received after this date will be addressed. For your convenience, we will be sending a calendar hold for that day as well. At this point, the text is considered CONFIDENTIAL so please do NOT share this text with anyone outside your organization.

Lastly, to help socialize and amplify our foundational policy document, we are requesting quotes of support on the Blueprint from your organizations. You can submit your organization's supportive quote [here](#).

Should you have any questions, please do not hesitate to reach out to me.

Thank you all for your continued support of and participation in the Coalition's work!

Best,

Christian Flinn
