

**CARBON CAPTURE
IMPACT**

About Us

Purpose: Carbon Capture Impact (Impact), a 501(c)4 organization, is the premier national advocacy organization to advance durable, common-sense federal policy solutions for the nationwide deployment of carbon management technologies. A sister initiative of the Carbon Capture Coalition, Impact amplifies the voices of a broad, far-reaching network of advocates representing nearly every facet of the carbon management industry and stakeholder community.

Impact engages with lawmakers in all elements of their job, providing flexibility to drive forward the legislative priorities of Impact members.

- **Members:** Members of the Carbon Capture Coalition are welcome and encouraged to engage in Carbon Capture Impact.
- **Decision making:** The Carbon Capture Coalition envisions a broad policy agenda for the nationwide deployment of carbon management technologies and provides a consensus-based framework for action by Carbon Capture Impact.
- **Management:** Impact and the Carbon Capture Coalition operate as affiliated but separate organizations.
- **Funding:** The operating budget for Impact comes directly from dues to the organization. *Contributions to Carbon Capture Impact are not tax-deductible.*

VISION

Carbon management technologies are a widely deployed emissions abatement strategy.

MISSION

Carbon Capture Impact engages with bipartisan lawmakers to enact and implement the supportive portfolio of federal policies that enable the nationwide deployment of carbon management technologies.

ABOUT US

Carbon Capture Impact is a 501(c)4 allied initiative of the Carbon Capture Coalition.

The Carbon Capture Coalition is an initiative of the Great Plains Institute, a 501(c)(3) organization.
