Lame Duck Strategies & Priorities

- 45Q – Setting the stage for 120th
  - Marker bill discussions happening with Sen. Dem offices
- FY27 Appropriations
  - Defend HGEO carbon management programs
  - Advocate for protecting IIJA remaining funds (CIFIA, DAC hubs, Demos, CarbonSAFE, etc)
  - Identify potential appropriations-focused GHGRP provisions
- Permitting
  - Explore inclusion of an **optional** federal pathway for CO_2 pipeline siting and construction

Focus: Shoring Up Support for Carbon Management

- Impact will continue to operate on a non-partisan / bipartisan basis
- Important to elevate engagement with the Democratic majority while maintaining relationships with the Republican offices we've leaned on over the last two years

- Messaging: Impact will need to remain flexible
- We will continue to recognize the role of carbon management in meeting climate targets while using messaging that resonates with the affordability mandate:
  - Climate progress and affordability are two complementary priorities
  - Carbon management is an economic and workforce opportunity
  - Supporting domestic energy, industry & manufacturing
  - US economic competitiveness
  - Retaining US leadership position in carbon management

Key Priorities: 120th Congress

- **Education campaign**
  - More than a quarter of Congress are new members
  - Planning a small, education-focused Hill Day in March
- **Tax**
  - 45Q marker bill:
    - Increased credit values
    - Eliminate LCA pre-approval
- **Infrastructure Development**
  - Class VI timelines & implementation
  - Retool CIFIA
- **Appropriations**
  - Protecting remaining IIJA funding
  - Base R&D Appropriations at DOE
  - Class VI
- **GHGRP**
  - Reinstating transparency provisions for 45Q
  - Some Dem interest in CRAs for a GHGRP final rule; potential to codify the program
